Bullying

The Board promotes a secure and happy school climate, conducive to teaching and learning, that is free from threat, harassment and any type of bullying behavior. Such conduct is disruptive of the educational process. Therefore it shall be the policy of the Board that bullying of a student by another student is prohibited.

"Bullying" means (A) the repeated use by one or more students of a written, oral or electronic communication, such as cyberbullying, directed at or referring to another student attending school in the same school district, or (B) a physical act or gesture by one or more students repeatedly directed at another student attending school in the same school district, that:

- (i) Causes physical or emotional harm to such student or damage to such student's property,
- (ii) Places such student in reasonable fear of harm to himself or herself, or of damage to his or her property,
- (iii) Creates a hostile environment at school for such student,
- (iv) Infringes on the rights of such student at school, or
- (v) Substantially disrupts the education process or the orderly operation of a school.

Bullying shall include, but not be limited to, a written, oral or electronic communication or physical act or gesture based on any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity or expression, socioeconomic status, academic status, physical appearance, or mental, physical, developmental or sensory disability, or by association with an individual or group who has or is perceived to have one or more of such characteristics.

Bullying includes student conduct (A) on school grounds, at a school-sponsored or school-related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased or used by a local or regional board of education, or through the use of an electronic device or an electronic mobile device owned, leased or used by the local or regional board of education that meets the above criteria.

Bullying also includes student conduct (B) outside of the school setting if such bullying (i) creates a hostile environment at school for the student against whom such bullying was directed, (ii) infringes on the rights of the student against whom such bullying was directed at school, or (iii) substantially disrupts the education process or the orderly operation of a school.

"Outside of the school setting" means at a location, activity or program that is not school related, or through the use of an electronic device or a mobile electronic device that is not owned, leased or used by a local or regional board of education.

A comprehensive safe school climate program, involving everyone in the schools and the community, to address bullying at all school levels is essential to reducing incidences of bullying. Such a program must involve interventions at all levels, school-wide, classroom and individual.

The District's Program

The notice shall be simultaneously mailed to the parent or guardian with whom the student primarily resides and to the other parent or guardian if requested. The notice must describe the school's response and any consequences that may result from further acts of bullying; requires the development of case-by-case interventions for addressing reported incidents of bullying against a single individual or recurrently perpetrated bullying incidents by the same individual that may include both counseling and discipline;

In addition, the norms that are established by adults through consistent enforcement of all policies pertaining to conduct and modeling appropriate behavior at school and at home will reduce the damage of bullying.
